

LINDAU NOBEL LAUREATE MEETINGS

Online Sciathon 2020

Rules

- The goal of the Online Sciathon 2020 is to develop project ideas and solutions on the three given topics in 48 hrs – and to have fun and interact with the global Lindau Meetings' community
- The topics are:
 - Lindau Guidelines
 - Communicating Climate Change
 - Capitalism after Corona
- The core of the Sciathon is cooperative, inclusive, fair teamwork done in diverse, interdisciplinary groups and in line with the Lindau Guidelines and the Lindau Spirit.
- The result of the 48-hour Sciathon will be documented in a final report (up to five pages) that the groups have to hand in prior to the closing ceremony (21 June, 16.00 hrs).
- Groups should also create a 2-minute video about the project, to be delivered until 22 June, 16.00 hrs. The video and possibly the report will be released on the Sciathon website and, if applicable, through the Lindau Meetings' online platforms.
- A review panel will select the top project results. The selected groups then receive the opportunity to present their work during the Online Science Days 2020 to the participants, including Nobel Laureates and Lindau Alumni.

Lindau Nobel Laureate Meetings

About the Lindau Nobel Laureate Meetings

Since their foundation in 1951 the Lindau Nobel Laureate Meetings have developed into a unique international scientific forum. The annual Meetings provide an opportunity for an exchange between different generations, cultures and disciplines. The theme of the Lindau Meetings alternates between Physics, Chemistry or Physiology and Medicine – the three Nobel Prize scientific disciplines. Every five years an interdisciplinary Meeting takes place, while the Lindau Meeting on Economic Sciences is held every three years. Through the medium of various declarations (2015 on Climate Change, 1955 Against the Use of Nuclear Weapons) the scientists have repeatedly joined in the public debate with political appeals.

It was the Lindau physicians Franz Karl Hein and Gustav Wilhelm Parade who approached Count Lennart Bernadotte af Wisborg with the idea of a conference of Nobel Laureates and proceeded to jointly implement this with him – since 1953 with the participation of young scientists. Some 35,000 students, PhD candidates and post-docs have since taken part. Their experience of the Meeting may be literally once-in-a-lifetime, but they remain permanent members of the Lindau Alumni Network and ambassadors for scientific dialogue.

All year long the Lindau Nobel Laureate Meetings continue to pursue their “Mission Education” aimed at emphasising the importance of science and advocating science and research. This is also the purpose for which the online mediatheque is being developed into a learning platform which includes teaching materials for schools.
